Introduction

A.Z. Apparel (Pvt) Ltd is established in 2005. One of the world's good Apparel manufacturers with Apparel being its core business- has an annual Company turnover \$40 million, vertically integrated organization from knitting to finished garments. We are one of the best companies in developing and manufacturing of knitted apparel, woven & denim production right from basic to highly fashioned garments thus responding to emerging trend in the industry, we translate conceptual idea of customers into reality and shape them through our technical bent by our professional team. **Sustainable Products are our main Slogan.** **We are Specialized in Organic, Recycled Cotton, Recycled Polyester & BCI Cotton** which is requirements of worldwide now. We are the one of the largest company in Pakistan who has ETP Plant based on activated sludge system & sustainable products. From last 2 years we are doing our 90% production with sustainable products & now target to manage 100% capacity with sustainable products this year 2021.

We strongly believe in excellence, customer focus and competitiveness in all areas of business and serving our clients successfully from various locations and regions of the globe. We have product design/development, marketing & distribution network in Pakistan, design studio in Cotton Live SL (Spain). In house design & product development facilities and well established Research & innovation Center, with a team of technical experts, have paved the way to serve **AZ Apparel** customer's needs well in time.
